STREAMLINE™

BY REMEE

Reliable Ethernet Data Cable for Networking Applications

Remee Wire & Cable offers the commercial and enterprise networking industry a complete selection of copper data and fiber optic cables for computer networks and data centers. Remee knows that signal integrity and speed are of the utmost importance, so we manufacture our cables for consistency and reliability under our tradename STREAMline™

Reliable Ethernet Data Cable for Networking Applications

Remee's STREAMline™ LAN & Premise Cables provide robust solutions for commercial enterprise networks to connect people, information and technology. Typically constructed with twisted pairs, STREAMline™ premise cables provide performance up to 10 Gigabit Ethernet and beyond.

Remee's STREAMline™ LAN & Premise Cables are available:

- To meet/exceed EIA/TIA Category 6 or 6A
- As PVC riser, plenum rated and LSZH
- Armored or bundled1
- In UTP (unshielded), STP (shielded)

STREAMline™ plenum rated cables in Cat 6 or Cat 6A are popular items.

STREAMline™ by Remee Consists of the Following Cable Types:

Plenum-Rated

CAT 6

- UTP (550MHz)
- UTP Enhanced (650MHz)
- S/UTP (250MHz)

CAT 6A

- UTP (500MHz)
- S/UTP Augmented (500MHz)

Riser Rated

CAT 6

- UTP (550MHz)
- UTP Enhanced (650MHz)
- S/UTP (250MHz)

CAT 6A

- UTP Augmented (500MHz)
- S/UTP Augmented (500MHz)

Also available upon request:

- CMX/CMR Indoor (Riser) / Outdoor (UV jacket)
- CMX/CMP Indoor (Plenum) / Outdoor (UV jacket)

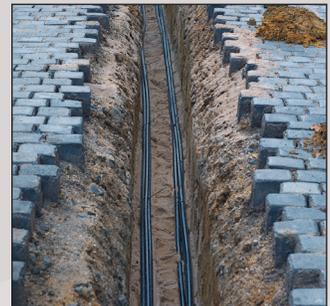

Outside Plant/Wet Location

CAT 6

- UTP (250MHz) for outdoor (wet location OSP)
- STP (250MHz) for outdoor (wet location OSP)

CAT 6A

- UTP (500MHz) for outdoor (wet location OSP)
- STP (500MHz) for outdoor (wet location OSP)

STREAMline™ Power over Ethernet (PoE) and Activate™ Power Cable Solutions (PCS)

Remees STREAMline™ UTP & STP cables are designed to provide data and PoE power up to 100 meters and meet or exceed PoE standards outlined in IEEE 802.3af/at/bt.

For the transmission of power & data beyond 100 meters, see Remees Activate™ line of Power Cable Solutions on www.remee.com.

REMFO™ Fiber Optic Cables

Remees also offers a complete line of Fiber Optic cables with a variety of jackets for Riser (indoor/outdoor), Plenum (indoor/outdoor), LSZH, and OSP, all of which are suitable for 10Gb Ethernet performance.

OS1 and OS2 Single-Mode fibers are longer distance and future-proofing options for backbones, in campus networks, data centers, ISP handoffs, and building-to-building links.

OM3 (50um Multimode) and OM4 (50um Multimode)

Remees carries some inventory on 6, 12 and 24F versions on premise fiber.

Aluminum interlocked armoring and corrugated steel tapes are available for protection in indoor or outdoor applications.

See Remees full line of standard Fiber Optic Cables and custom capabilities on www.remee.com.

Custom Cables & Modifications (PCS)

Remees specializes in designing and manufacturing custom cables and modifications to existing standard cables. We are more flexible with MOQs and volume orders that many other cable manufacturers require. Remees offers very competitive MOQs and lead times for modification and custom orders.

Here are some of the features you can select for a custom designed cable:

- Bundled, composite and hybrid cables
- Jacketing & insulation options
- Various shielding configurations
- Non-standard colored jackets
- Optional striping
- Other requirements you may have

Standards & Certifications

STREAMline™ LAN and Premise cables are manufactured to meet or exceed all current EIA/TIA standards. Remee LAN & Premise cable meets applicable ETL & CSA requirements. Remee LAN & Premise cable is manufactured under our ISO 9001 certification.

Warranties

Remee offers two types of warranties:

1. Remee Limited Product Warranty

Remee shall repair, replace or refund the purchase price of any non-conforming Products for a period of 12 months – see full warranty for details.

2. Remee Open Systems Edge (R.O.S.E.) Extended Warranty

Covers fiber optic and copper cabling systems using Remee Wire & Cable products and CONNECTIVITY FROM ANY MANUFACTURER. You can combine Remee cable products with any of our connectivity partners, or with any other connectivity manufacturer. This one-of-a-kind warranty is totally flexible and unique in the structured cabling industry and is not offered by anyone else.

Why Choose Remee?

MADE IN THE USA

Remee's ability to modify standard products, design and manufacture custom and complex cable constructions, as well as to manufacture standard stock items, is a result of having strong engineering depth and broad manufacturing capabilities.

90% OF MATERIALS ARE SOURCED LOCALLY

Remee has the engineering expertise, the manufacturing capabilities and the right equipment to make very complex cable constructions and our materials are 90% locally sourced! We're specialists in manufacturing siamese cable, composite wire and cable, hybrid cable, bundled cable and messengered cable.

50+ YEARS OF MANUFACTURING

Remee's dedication to excellence in engineering and manufacturing for 50+ years and high quality-control standards apply whether the products are custom made cables or standard stock items. We are large enough to handle high volume orders, yet small enough to provide quick turn-around delivery.

EXTENSIVE CABLE CONSTRUCTION & CAPABILITIES

Remee specializes in complex cable constructions, such as siamese cable, composite wire and cable, hybrid cable, bundled cable and messengered cable.
